

Technical data sheet

Aerogel Granulat

PRODUCT DESCRIPTION

Aerogel granules provide excellent insulation properties and are suitable as an additive for building materials, paints, and coatings or for filling cavities, especially in applications with translucent elements.

TECHNICAL INFORMATION

Apperance	Translucent
Bulk Density	$55^{\pm 10} \text{ kg/m}^3$
Surface Chemistry	Hydrophobic
Thermal Conductivity	$\lambda 0.020^{\pm 0.002} \text{ W/mK}$

DIMENSIONS

AGITEC Silica Aerogel Powder	< 1 mm
AGITEC Silica Aerogel P 1-2	1 - 2 mm
AGITEC Silica Aerogel P 2-4	2 - 4 mm
AGITEC Silica Aerogel Mix	≤ 4 mm

Fields of application
